

JUMBO™
positioning chair

JUMBO™

positioning chair

AKCESMED

Positioning chair **JUMBO™** is used for initial upright standing of children in the sitting position.

It is made of ecologic wood and therefore it is eco-friendly.

Despite its simplicity, it perfectly fulfils its function. It is safe for spastic as well as flaccid children with decreased muscle tone. Adjustable side supports help in correcting postural problems and, moreover, this chair may be beneficial regarding orthopaedic disorders.

It has a safety vest which is equipped with innovative **“hold & pull”**© system thanks to which the child is both quick and precisely secured in this chair.

Each product is hand painted on water base paints. Size 3 thanks to the quick folding system of the footrest makes it easy to place and remove the person from the chair.

IT IS RECOMMENDED IN THE FOLLOWING CASES:

- Cerebral palsy – various types and forms.
- Brain and spinal cord injuries with lower limbs paralysis and weakness, balance and motor coordination disorders with different etiology.
- Demyelinating disease (e.g. multiple sclerosis – SM).
- Meningocele.
- Muscles diseases with weakness and paralysis (dystrophy, myasthenia gravis, myositis).
- Genetic disorders.
- Degeneration and neurological diseases.
- Other condition connected with muscles weakness, paralysis and musculoskeletal disorders.
- After head and spinal cord injuries and spine trauma with paralysis and paresis.

STANDARD EQUIPMENT:

Frame with castors and brakes | Foot rest with feet stabilizing belts | Seat | Seat cushion | Efficient Tilt-in-space adjustment

The use in the product of an innovative four-bar linkage, supported with the gas spring, greatly improves smooth Tilt-in-space adjustment. | Backrest

**Safety****Soft cover for tray**

Soft cover protects the user from hitting the tray. Indicated for patients with impaired limbs coordination.

**Patient lift belt**

Robust and ergonomic design as well as high durability facilitates daily care of the patient.

**Stabilization****Adjustable headrest**

Headrest adjustable in three dimensions. Due to its special design, it can be precisely adjusted to the user's needs.

**Extended headrest**

For patients with increased head circumference. It provides better side stabilization.

**Head supporting belt**

Attachable to the headrest by use of Velcro straps. Used for people with limited control of the head to prevent its falling.

**Thigh abduction belts**

They can be easily attached to the chair by use of Velcro straps. Their use allows to keep legs in abduction and also prevents the patient from slipping off of the device.

**H vest**

It acts as a trunk stabilizer. HOLD&PULL® system makes it easier to adjust the vest to the patient body. You can quickly detach the vest if necessary.

**6 point vest**

Wide range adjustable vest that acts as a trunk stabilizer. HOLD&PULL® system makes it easier to adjust the vest to the patient body.

**Comfort****Tray for manual therapy**

The tray allows active exercises assisting upper limbs with a particular focus on palm function.

**Tray**

Made of wood. It supports the therapy and allows you to play, eat, and work.

**Cotton cover for headrest**

It helps to keep the headrest clean. Easy to assemble/disassemble, it can be washed.

**Seat cushion – Elastico**

It precisely adapts to the patient's body. Made of memory foam covered with breathable and spatial fabric. It is indicated in anti-bedsore prophylaxis.

**Backrest cushion – Elastico**

It precisely adapts to the patient's body. Made of dense memory foam covered with breathable and spatial fabric. It is indicated in anti-bedsore prophylaxis.

**Seat cushion – profiled thighs**

Anatomical notch on the thighs improves sitting comfort.

**Seat cushion - Abduction block**

Shaped abduction block provides with correct seating position. Can be easily removed.

**Tango caster with a diameter of 100mm**

Noiseless, easy to maintain, does not leave marks, does not corrode.

**Tray for non verbal communication**

It is a very important element in the rehabilitation of patients with speech dysfunction and, moreover, it makes it easier to perform daily activities. The set consists of 38 cards that may be put in random order into 24 places of the tray. It is covered with transparent and aesthetic plate™ made by Plexiglas®. Parents and child can create their own symbols that they believe are significant for their communication.

**Storage****Oxygen tank case**

Oxygen tank case can be attached to the stroller by use of Velcro straps with adjustable length. Made to measure to perfectly fit the patient's oxygen tank.
